Instructions

VIBRAKING
MODEL 200c

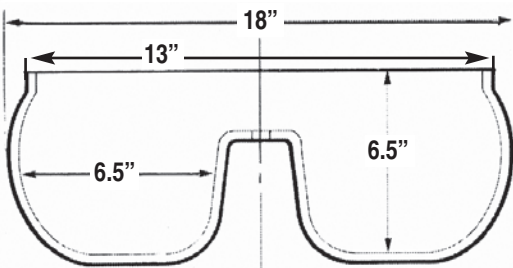

New Design

Burr King's patent pending chute plug design was introduced in 2020. The new plug was designed with the user in mind.

The double seals drastically reduce the potential of leaks during operation. The plug also features user replaceable seals to ensure the best possible performance.

Own an older 200 bowl? You can upgrade to the latest version by ordering a new bowl and plug kit. This is a retrofit kit and will work on 150 and 200 bowls.

**SUMPPAK
1000**

The SumpPAK 1000 comes with a 5 gallon bucket, pump hanger, pump and all tubes to connect filtration system to machine. Can be used with bowls or tubs.

Mount your VibraKING Bowl on the StandPAK 5000, add a FilterPAK 4001 for a complete, timer controlled, filtered, compound finishing system.

**FILTERPAK
4001**

The FilterPAK 4001 can be used with vibratory bowls or tubs. Heavy duty Polyethylene construction with submersible pump and disposable filter bag. 6 gallon working capacity. Also available FilterPAK 8000 used with Vibra KING 85 and stainless steel construction.
